HOW ARE WE DIFFERENT

BIG POINTS OF DIFFERENCE

No Counted Hours as we love to "Story Tell" your wedding. Coverage from Bride + Groom Getting Ready to walking out of Reception

Our "Story Telling Films" are all about capturing the day in a cool, natural and whimsical way that begs to be viewed, none of the 1980's style that many other videographers take. We take modern story telling wedding photography and we also take story telling wedding video's to complement each other. No use using a videographer that is totally opposite to our photography style, it just wouldn't work or look cohesive! Designed to look and feel like memories, we create these candid and fun films for you to immortalise the day and share

WHAT'S THE NUMBER #2 REGRET OF ALL BRIDES? Not booking a Wedding Film! – ask us about #1 Regret of all Brides!

So many brides that we meet have a fear they "won't be present" or that they will "miss parts or the whole day" as your wedding day is full of getting ready and celebrating and that's why you have photographs and film to remember the natural moments! And it's true what they say, it is the best day of your life but it can go by so very fast. What is why we offer Wedding Video's.

We create beautiful, natural, candid moving films of your "Big Day" capture all the laughs, tears, the details and the dance like crazy moves. Put all your fears and anxieties aside knowing that we will capture and bottle up all of your memories in one of our beautiful little films to complement your wedding photography.

Our video packages include a cinematic short film capturing the best moments of your wedding day, with the option of having the complete footage of your ceremony and reception speeches provided as an additional film.
